

Common Sense Conservation

October 28 - 30, 2009 Geneva Park, Orillia

Tours and Demonstrations

The Wye Marsh sits on a 3,000-acre wildlife area in southern Georgian Bay. It is committed to preserving the natural heritage of the Wye Valley while providing low impact educational, recreational and research opportunities to benefit present and future generations. Find out why the Wye Marsh is a success story in conservation.

Fleming College, situated in Ontario's Kawaratha Lakes Region, is renowned as a world-class learning institution and a leader in environmental and natural resource sciences. See first hand how to handle an enforcement issue. Witness a live scenario and follow it through from laying charges to trial proceedings in Fleming's mock court room, which is part of Fleming's Law and Enforcement program.

Job Hazard Analysis Certification: This is a key component of your Health & Safety Management System required by WSIB Workwell, CSA Z1000, BSI 18001. A practical hands-on program which will provide you with the skills necessary to conduct a comprehensive Risk Assessment and Job Hazard Analysis of your activities. For more information www.mhsao.com. Please note there is a 25 person limit for this extended certification workshop, plus an additional charge of \$100.

Seminars

Conservation Areas help Ontarians to keep fit and experience their local environment. They also provide a window into the larger work of Conservation Authorities. But conservation comes with challenges too. This three day workshop will provide Conservation Authority staff with seminars on enforcement issues and solutions, risk management and liability, accessibility and green building design.

Early Bird Registration

Before September 30, 2009, pay only \$300 for a full registration with double room occupancy or \$350 for a single room. One-day and two-day registrations are also available at the early bird rates of:
